# SHARE IS

where the architecture community comes  
together to share ideas and inspiration, learn  
and celebrate excellence in architecture.

SHARE events bring together **principals and senior architects** from leading practices to discuss and gain inspiration from each other. **The conferences offer the opportunity to meet great minds in the global architectural community through our talks program.**

Visionary architects present some of the world's best buildings, innovative materials, revolutionary technologies and systems at SHARE International Architecture Forum. Iconic projects inspire the audience, questioning the obvious, exploring cultural heritage, reinterpreting local culture and tradition.

The lectures are concentrated on present and future, innovation in architecture and engineering, on explorations on new materials and technologies for designing a smart and sustainable built environment. Large-scale projects are presented from different perspectives, by architects and contractors. These events are also attended by architecture offices at the forefront of design, led by architects to watch, representatives of an emerging generation of talented architects.

For 20 years we have been in pursuit of excellence in the fields of architecture and construction, through these international events organized for architects and contractors, in cooperation with our partners, the national chambers of architects, architecture institutions and associations. SHARE conferences act as an effective platform for networking, business, inspiration and exchange of ideas and transfer of know-how and are considered a continuous training program for architects.

Also, we have initiated recently the Romanian Building Awards to celebrate a fundamental component of our lives, the built environment. The experience of leaders of the profession and projects that have a significant social, cultural and economic impact are rewarded excellence.

Bringing together hundreds of practicing architects and contractors in Europe, Asia and the United States of America, SHARE events promote projects, achievements and recent best practice examples in architecture and construction industry.

*We invite you to join our SHARE community and attend SHARE events that reunite lead architects and contractors!*

Florin Mindirigiu  
President ProEvent Association

# INSIGHTS SHARE EVENTS

The agenda of SHARE guests is tailored choosing from a series of activities:

Motivational and inspirational conferences at the university  
dedicated to students – Junior SHARE meetings  
Lectures dedicated to architects and engineers  
Masterclass and Debate  
Meetings with the mass-media  
Architecture Tour  
Evening events – social and networking events  
Meetings with project beneficiaries  
Meetings with the representatives of the academia and  
diplomats

# SHARE TALKS OFFER A SERIES OF OPPORTUNITIES:

Speak about your projects and your practice in a holistic way

Share knowledge and your know-how, gather competitive intelligence and make competitive comparisons

Interact with a highly targeted audience and focused participants

Network among peers, clients and suppliers to share architectural insight, develop key relationships and facilitate new business

Interact with budget managers, directors and decision-makers from some of the most influential organizations and eminent institutions and companies

Engage with guest speakers from over 10 countries among the 250 participants

Lecture at the university, in the series of motivational and inspirational conferences "SHARE meet the architect" and "Junior SHARE" meetings

Meet representatives of the profession from the local community of architects and key-representatives of national and international associations

Attend networking events on behalf of the practice

Discover more about regional projects by architects shortlisted in the Romanian Building Awards, with a program of short presentations

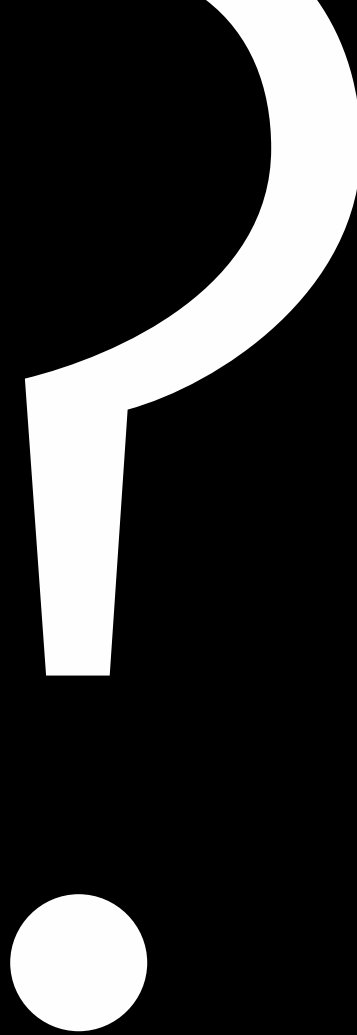

Celebrate great architecture at our gala dinner

Take advantage of the conference extra program activities including an architecture tour of the city and dinner with the other guest speakers and representatives of the Order of Architects and from the local university

Promotion in the national architecture magazines and opportunities to give interviews

# WHO ATTENDS SHARE EVENTS

architects, landscape architects, engineers, interior  
architects, interior designers, contractors, investors,  
consultants  
manufacturers, service providers and developers of  
architectural products and services  
representatives of the academia and of the professional  
associations  
press representatives

architecture guided tours,  
meetings with representative  
local architecture offices

*„I admired the hospitality and the additional program of the conference. I think that the level of the presentations was very good, due to the level of the subjects very well spread out, from architecture to teaching. I think everyone could find everything for himself.“*

**arch. Andrzej BULANDA, Principal of BulandaMucha Architects, POLAND, Guest Speaker INGLASS Warsaw 2014 and INGLASS Bucharest 2015**

*„It is a very good idea to bring at these conferences international architects from all over the world and let local architects share their ideas and confront themselves with architects from all over the world. For us too it is interesting to know the reality from the country that hosts the conference. It is important to gather and to share opinions and projects and dreams, to meet each other and to become friends.“*

**arch. Carlo BERARDUCCI, Founder, Berarducci Architecture, ITALY, Guest Speaker GIS Krakow 2016 edition**

*“Congratulations for the success of NEW CITIES conferences. Thank you very much for your hospitality and your support. You have a new friend!”*

**arch. Javier Perez HERRERAS, Founder Taller Basico de Arquitectura, SPAIN, Guest Speaker RIFF Bucharest 2016 edition & New Cities inspirational conference Iasi 2016 edition**

# TESTIMONIALS

*"The success of the conferences that have been organized in cooperation with Association of Polish Architects was demonstrated by hundreds of people from all over Poland, architects, interior designers that participated. We need such a branch meeting. The presence of famous representatives of international companies and important architecture offices from all over the world is a confirmation that such international contacts are interesting and needed for our architects. GIS conference is a good symbiosis and good dialogue between designers of applied art and architects. One cannot exist apart from another and this is presented at this conference."*

**Mariusz SCISLO, President of the Association of Polish Architects – SARP**

"The GIS conference is a valuable conference through the selection of its speakers. In Poland the conference was organized on 22-23rd February 2016 under the Honorary Patronage of the Chamber of Polish Architects. Rarely do we have such collaborations because we have our own rules, our own regulations. We do not support all the architecture meetings. We carefully select the events which will be under our patronage. For us, architects, GIS represents a very important meeting and what pleasantly surprised me was the fact that the young generations of architects are interested in this kind of event. I recommend this event to architects."

**arch. Ryszard GRUDA, President the Chamber of Architects of the Republic of Poland (IARP)**

*"Romania is a country where we have too much confusion stemming from the fractures of history. Even though enough time has passed, almost a generation, the effects of the communist period are not yet understood and metabolized. To offer awards for what is built in Romania, or everywhere else for that matter, is nothing new – architects are awarded by architects, engineers offer awards to engineers, and so on. In fact, progress comes from the integration of all the segments that are part of this business and that is what we are trying to do with Romanian Building Awards and all its satellite events – to put everyone together and create a dialogue."*

**Serban TIGANAS, President of the Order of Architects of Romania - OAR**

*"The Chamber of Hungarian Architects is glad that the international expo conferences are here in our city. We have started the cooperation in 2015, for INGLASS, that was the highest professional gathering for architects dealing with material glass. We support all professional education and conference which are in favor of our members. This conferences are an opportunity for every registered architect."*

**Ferenc MAKOVÉNYI, Member of the Board of the Chamber of Hungarian Architects**

# TES

*"INGLASS was perfectly organized and had very interesting presentations. The lecture I held and the message addressed at the event was: "Don't worry, in two days tomorrow will be yesterday."*

**Prof. Wolf D. Prix, Principal COOP HIMMELB(L)AU, AUSTRIA, Special Guest INGLASS Bucharest 2013**

*„The most important challenge architects, engineers and product designers, will have to deal with in the near future will be the following: to make ecology really attracting and full of emotion, this is the subject I spoke about in the RIFF conference."*

**Prof. Dr. Dr. Eh Dr. hc Werner Sobek, Founder Werner Sobek Group, professor ILEK (Institute of Lightweight Structures and Conceptual Design), Stuttgart University, Special Guest RIFF Bucharest 2011**

*"This kind of platform that RIFF created is a network where I had the chance to see very interesting projects, to exchange ideas, it is always a beautiful moment to have a different experience. This kind of platform pushes a lot to create interaction, to get in touch with local offices, to make partnership with people you can create something together."*

**Maurizio MEOSI, Senior Associate ZAHA HADID Architects, UK, Keynote Speaker RIFF Bucharest 2016 edition;**

*"The reason why I accepted the invitation is because I saw in the program that this will be a very well prepared conference. My first reaction was that there is a list of very good speakers and also representatives of prominent architectural offices giving speeches about architectural use of glass. It has been a very big pleasure to be here."*

**arch. Rainer MAHLAMAKI, Founder Lahdelma&Mahlamaki Architects, FINLAND, Special Guest INGLASS Warsaw 2014 & INGLASS Bucharest 2016**

*"The communication at LAUD lectures were very interesting and I have seen many people that had experience. I held a master class about post-industrial landscape architecture, it was very relaxed. I had a good time. The presentations were very good and they had a lot of information."*

**prof. emeritus Peter LATZ, Founder LATZ+PARTNER, GERMANY, Special Guest LAUD Bucharest 2015**

*„It is my belief that the time of glass has come, it came a long time ago, maybe a decade ago, maybe even more. I am impressed by the contemporary Romanian architecture, in average I consider it very very good. Comparing to other countries I visit, the average is very very good."*

**arch. Dan S. HANGANU, DAN HANGANU ARCHITECTS, CANADA, Special Guest INGLASS Bucharest 2011& New Cities Iasi 2016 conference**

# TIM

*"GIS 2012 was an excellently run conference with a number of great speakers with interesting and educational content."*

**arh. Kevin THEOBALD, President International Association of Lighting Designers, UK, Special Guest GIS Bucharest 2012**

*„I think the conference was very interesting and also I'm very glad to see examples of modern architecture from all the Europe or all of the world and I was very glad to see that the way of thinking here in Poland or wherever in UE countries it's sometimes similar, sometimes different, but you can see the stream of modern architecture that is in the right road and somehow we got the same language, we understand each other, the language of architecture is universal. This is the very positive meaning of this conference. It's very well organised event and the quality of organisation is very high, so I must to say that I'm very, very glad I participated in this event."*

**Farshid TAVAKOLITEHRANI, Design Management Director/ Head of the Interior Department at Studio FUKSAS, ITALY, Special Guest in RIFF Warsaw 2015 conference**

# ONI

*"GIS International Interior Architecture and Design Expo Conference is the right place to meet architecture and design community to celebrate learn, exchange and be inspired and start to see where we're going to be in the future. It's that dialogue face to face, with people that are doing amazing things that makes GIS one of the most important events that happens in architecture each year. GIS is part of my heart since the Bucharest's edition and Warsaw edition and I really believe that the next amazing experience will be in Budapest."*

**Designer Nini Andrade SILVA, President & Founder Atelier Nini Andrade Silva, PORTUGAL, Special Guest GIS Bucharest 2012 & GIS Warsaw 2014**

*"The series of GIS events was extraordinary, with an incredible number of very very interesting people, architects, interior designers. The event has offered me the opportunity to meet people that I normally wouldn't have had the chance to meet and network with, this is what I think it is really important. In Los Angeles we have a really rare opportunity to do this and as it is so far away, allowing me to come to this was absolutely extraordinary, this is something I wouldn't have been able to do. I found the event to be fantastic and since my return to Los Angeles I have been telling everybody about it and I really recommend to other architects from the United States of America to participate."*

**arch. Hagy BELZBERG FAIA, Founder Hagy Belzberg Architects, U.S.A., Special Guest GIS Bucharest 2015**

*"One of the most important forces behind architectural progress has always been the possibility of coming together, to create platforms where interaction and inspiration can take place. It has definitely been a positive experience. It was a very good blend having a lot of very inspiring, different approaches, lectures, which went well with different shorter lectures in between that were more technical, showing what they are doing, quite inspiring also. I really feel that there is something bubbling in the Eastern part of Europe, which is very interesting for architects."*

**arch. Ósbjorn JACOBSEN, Partner Henning Larsen Architects, The Winner of Mies van der Rohe 2013, Special Guest of INGCLASS 2014**

*"I was very, very positively surprised of RIFF event, first of all of the audience, then of the quality of the speakers and of the projects presented. I was really impressed about the organisation and of the quality of conference."*

**Lukasz PLATKOWSKI, GENSLER, UK, Chairman in RIFF Warsaw 2015 Conference**

*"I think that it is important for international architects and designers to come together on a platform like GIS. We're all facing the same issues but the issues are slightly different and the more we communicate, the more we're able to keep quality going everywhere that we're working. Also, different disciplines need to speak more, the more we communicate the better we're all informed, really. I'm a central member of the International Association Lighting Designers which are headquartered in Chicago and we keep a very close eye on independent lighting design."*

**Colin BALL, Lighting Director BDP- Building Design Partnership Ltd, UK, Keynote Speaker GIS Bucharest & GIS Krakow 2016 editions**

# ALS

*"I think that this conferences are very useful because there are not a lot of places where we can share our opinions, our ideas about constructed buildings. It is something different to talk about theory, about methodology, skills in architecture, and it is completely different to talk about practice."*

**arch. Tony LING, Board Director Jestico + Whiles, UK, Keynote Speaker at RIFF Bucharest 2015 conference**

*"Beside the fact that I always like to communicate ideas with other people, with the architects from around the world, I believe that these conferences form a network where is important to give people the kind of information that they would remember, to light up something in their mind, to show them some relevant ideas, images and subjects. When I am out of the context of Iran, I want to show the difference – not the similarities – the culture, the people. Now the young generation does a good job and I want to show the audience the potential of Iranian architecture."*

**arch. Habibeh MADJDABADI, Principal Architect HabibehMadjdabadi Architecture Office, IRAN; Guest Speaker RIFF Bucharest 2016**

*"I want to say many thanks for an incredibly rewarding trip to Bucharest. I very much enjoyed the jury process at Romanian Building Awards (RBA) and the talk at the university was a great highlight. The organization throughout was very fine and it was nice to have time with the other jurors over dinner. This was a completely excellent set of experiences. I would be very happy on the basis of this visit to Bucharest to assist you again in the future at your events. Thanks again for a perfect speaker experience this time around."*

**arch. Gerard REINMUTH, Director Terroir, University of Technology Sydney – School of Architecture, AUSTRALIA; Guest Speaker RIFF Bucharest 2016 edition and member of the Romanian Building Awards Jury**
